

A Great Opportunity for Savings!

Brand medications are prohibitively expensive in the US. The ElectRx International Mail Order Program allows you to order 90-day supplies of eligible brand name medications from “brick and mortar” high-street pharmacies located in Canada, Great Britain, Australia, and New Zealand. Regulated and licensed pharmacists dispense these medications, and once you are enrolled, the medications will be shipped directly to your door. Both you and your employer can save significant amounts of money utilizing this seamless option.

This program allows members to receive eligible prescription drugs mailed directly to the home for FREE!
